Every day, Constellation is accelerating America's transition to a carbon-free future by expanding the nation's largest fleet of clean energy centers, providing always-on energy and sustainability solutions to our customers, and uplifting our communities. Our employee-led political action committee helps amplify our voice as a catalyst for change through political engagement. We must be part of the conversation in the halls of state and federal government and the Constellation Employee PAC helps us do that.

Constellation
Employee PAC

A MESSAGE FROM THE PAC BOARD CHAIR

On behalf of the Constellation Employee PAC Board, I extend my sincere gratitude to all 2024 PAC members. Your support is instrumental in maintaining Constellation's leadership in delivering clean and reliable energy.

Constellation is unparalleled in its capacity to integrate our world-class generation fleet with our commercial business, thereby maximizing the value of our generated megawatts, connecting with millions of customers, and advancing the clean energy transition. To sustain this leadership, we must remain actively engaged in the policy arena, ensuring policymakers understand the needs of our business, our customers, and the critical role our generation fleet plays in providing affordable and reliable energy to the grid.

The Constellation Employee PAC is central to this endeavor. It drives our advocacy efforts, making certain that the voices of Constellation employees are heard in Washington, D.C. and in state capitals where key energy policies are formulated.

As we progress into 2025, we celebrate significant milestones, including a historic achievement of securing over \$1 billion in combined contracts with the U.S. General Services Administration (GSA) and announced the acquisition of Calpine Corp., which will establish the nation's largest and cleanest energy provider.

These achievements underscore the importance of our daily efforts and the necessity of supportive public policies, enabling investments in our business, relicensing of our existing fleet, and planning for power uprates to continue supplying the grid with affordable and reliable energy. The PAC is an indispensable tool, offering us the opportunity to participate in discussions on public policy impacts on our business.

The PAC Board is proud to present this annual report, and we deeply appreciate the dedication and generosity of our members. Your support is pivotal in shaping the future of the energy industry, ensuring Constellation remains at the forefront for years to come.

We thank all current PAC Members for their commitment to protecting our future. It is never too late to join the PAC; visit www.constellationpac.com to learn more or sign up.

On behalf of the Constellation Employee PAC Board, I'd also like to add special thanks to Sally McAllister for her continued guidance and support of the Board. Sally's leadership and commitment to the PAC enable us to be a best-in-class PAC.

Under the Board's direction, Sally McAllister, Senior Manager, Federal Government Affairs, oversees Constellation Employee PAC's day-to-day operations and works with pertinent business units to ensure that our lobbying, advocacy, and political activities are conducted in compliance with both the letter and spirit of all local, state, and federal requirements. Meeting the highest ethical standards is paramount to protecting the company's reputation with both policy makers and the public.

The Constellation Employee PAC exists because federal and most state election laws prohibit the use of corporate contributions. Additionally, under federal law, the PAC may only be funded by voluntary employee contributions. The PAC is the only way for Constellation, as a collective group of employees, to support federal and most state candidates for office. To continue being a leader in clean energy production and a catalyst for change, we must engage politically. The PAC offers more opportunities to engage and educate candidates on the complex issues facing our company and industry.

CANDIDATE CRITERIA

Constellation engages with elected officials who support sound energy policies that will benefit our customers, employees, and the communities we serve. While there are some instances where we disagree with an elected official's stance on a specific issue, their support in other areas may be critical to meeting our purpose of accelerating the transition to a carbon-free economy and speeding the delivery of low-carbon or no-carbon power to help families, communities, governments, and businesses meet their sustainability and decarbonization goals.

We believe we can more effectively advocate on behalf of our customers and communities by engaging with elected officials in areas where we find common ground using the following contribution criteria.

The integrity, character, and leadership ability of the candidate.

The candidate's position or voting record on issues that matter to Constellation, including issues of economic and social importance.

A candidate's leadership within their party or committee assignments.

An existing constituent relationship with the candidate.

A candidate's primary or general election prospects.

Other financial resources available to the candidate.

Contributions to CEPAC are not tax-deductible as a charitable contribution for federal income tax purposes. Contributions to CEPAC are strictly voluntary and you may refuse to contribute without reprisal. Contributions to CEPAC will be used to support federal and state political candidates. All contributions are subject to the limits and prohibitions of federal campaign finance law. The contribution levels listed are merely suggestions, you are free to contribute more or less than the guidelines suggest and you will not benefit or be disadvantaged by the amount of your contribution or a decision not to contribute. Payroll deduction will continue until revised or revoked in writing to the Treasurer. Federal law requires CEPAC to use its best efforts to collect and report the name, mailing address, occupation, and name of employer of individuals whose contributions exceed \$200 in a calendar year, including each contribution made. You must be a U.S. citizen or permanent resident in order to contribute.
