MISSION STATEMENT

Every day, Constellation is accelerating America's transition to a carbon-free future by expanding the nation's largest fleet of clean energy centers, providing always-on energy and sustainability solutions to our customers, and uplifting our communities. Our employee-led political action committee helps amplify our voice as a catalyst for change through political engagement. We must be part of the conversation in the halls of state and federal government, and the Constellation Employee PAC helps us do that.

Employee PAC

A MESSAGE FROM THE PAC BOARD CHAIR

On behalf of the Constellation Employee PAC Board, I extend my sincere gratitude to all 2025 PAC members. Your continued support is essential to maintaining Constellation's leadership as the nation's largest producer of clean, reliable energy.

Constellation remains uniquely positioned to integrate our world-class generation fleet with a strong commercial platform — maximizing the value of our generated megawatts, serving millions of customers, and advancing America's clean energy future. As demand for reliable and clean power continues to grow, active engagement in the policy arena is critical. Policymakers must understand the needs of our business, our customers, and the critical role our diverse generation fleet plays in keeping the grid affordable, resilient, and secure.

The Constellation Employee PAC is central to that effort. It amplifies the voices of our employees in Washington, DC, and in state capitals where key energy decisions are made, ensuring Constellation has a seat at the table as policies shaping our industry take form.

2025 marked several important milestones for our company. We preserved more than \$1 billion in contracts with the U.S. General Services Administration (GSA) to supply clean energy to federal agencies, reinforcing Constellation's role as a trusted partner to government and industry alike. Two huge partnerships were announced, including a long-term agreement ensuring Clinton Clean Energy Center remains open for another 20 years, and the Calpine transaction, a complementary addition to our generation portfolio that strengthens our ability to deliver reliable, sustainable energy at scale and positions us for

long-term growth. In addition, we successfully advocated for Congress to maintain the nuclear production tax credits, which remain foundational to our success and ability to grow the company.

These achievements highlight the importance of sound public policy — policies that support continued investment in our business, extend the operational life of our existing fleet, and enable strategic uprates to meet the nation's growing energy needs. Our advocacy challenges in the year ahead will be even greater with the addition of Calpine, bringing new policymakers and issues into our engagement efforts. The PAC is an indispensable tool in these conversations, helping us advocate for solutions that protect our employees, our customers, and our future.

The PAC Board is proud to present this annual report, and we are deeply grateful for the dedication and generosity of our members. Your support plays a vital role in shaping the future of the energy industry and ensuring Constellation is a leader for years to come.

Thank you to all current PAC members for your commitment. With the completion of the Calpine transaction, there is much work ahead as we navigate challenges to our expanded portfolio of business. Our voice is only as strong as the employees who support the PAC and the efforts of our public policy team, and now is an excellent time to enroll. Under the Board's direction, Sally McAllister, Senior Manager, Federal Government Affairs, oversees Constellation Employee PAC's day-to-day operations and works with pertinent business units to ensure that our lobbying, advocacy, and political activities are conducted in compliance with both the letter and spirit of all local, state, and federal requirements. Meeting the highest ethical standards is paramount to protecting the company's reputation with both policymakers and the public.

The Constellation Employee PAC exists because federal and most state election laws prohibit the use of corporate contributions. Additionally, under federal law, the PAC may only be funded by voluntary employee contributions. The PAC is the only way for Constellation, as a collective group of employees, to support federal and most state candidates for office. To continue being a leader in clean energy production, we must engage politically. The PAC offers more opportunities to engage and educate candidates on the complex issues facing our company and industry.

PACMatch

Constellation is proud to offer **PAC Match**, the Constellation Employee PAC program that allows PAC members to participate in the political process and support charities across the nation with one contribution.

How does the PAC Match program work?

STEP
1

Sign up at the Chairman’s Club giving level according to your salary grade.

STEP
2

Once you have received the PAC Match enrollment email, select the charity of your choice for Constellation to match.

STEP
3

Contributions to the charity selected will be sent annually in Q1 of the following year.

Constellation employees care about giving back, and the PAC Match program turns that commitment into real impact. By participating, our members help provide critical funding to local organizations that rely on every dollar to thrive.

CANDIDATE CRITERIA

Constellation engages with elected officials who support sound energy policies that will benefit our customers, employees, and the communities we serve. While there are some instances where we disagree with an elected official's stance on a specific issue, their support in other areas may be critical to industry issues.

We believe we can more effectively advocate on behalf of our customers and communities by engaging with elected officials in areas where we find common ground using the following contribution criteria.

The integrity, character, and leadership ability of the candidate.

The candidate's position or voting record on issues that matter to Constellation, including issues of economic and social importance.

A candidate's leadership within their party or committee assignments.

An existing constituent relationship with the candidate.

A candidate's primary or general election prospects.

Other financial resources available to the candidate.

Contributions to CEPAC are strictly voluntary and you may refuse to contribute without reprisal. Contributions to CEPAC will be used to support federal and state political candidates. All contributions are subject to the limits and prohibitions of federal campaign finance law. The contribution levels listed are merely suggestions, you are free to contribute more or less than the guidelines suggest and you will not benefit or be disadvantaged by the amount of your contribution or a decision not to contribute. Payroll deduction will continue until revised or revoked in writing to the Treasurer. Federal law requires CEPAC to use its best efforts to collect and report the name, mailing address, occupation, and name of employer of individuals whose contributions exceed \$200 in a calendar year, including each contribution made. You must be a U.S. citizen or permanent resident in order to contribute.
